Professional Summary

Full-Stack Developer with **16+ years of experience** building scalable, high-performance web and mobile applications. Specialized in **React, Node.js, AWS Services (Serverless), and more**. Adept at delivering clean, maintainable code, architecting complex systems, and mentoring teams. Experienced in **Agile/SCRUM**, and modern UI frameworks to deliver exceptional user experiences.

Core Skills

- **Frontend:** TypeScript, React, Redux, RTK, ReactQuery, Zustand, Material-UI, TailwindCSS
- **Backend:** Node.js, Python, PHP
- **Databases:** MySQL, PostgreSQL, DynamoDB
- **Cloud & DevOps:** AWS (Lambda, S3, DynamoDB, CloudFront, Route 53), Docker, GitHub, CI/CD
- **Other:** Serverless, Microservices, Agile/SCRUM

Professional Experience

Senior Software Engineer – RenditionDigital, Inc. (*Remote*)

Apr 2024 – October 2025

- Led UI feature development with React (TypeScript) and React-Bootstrap for responsive interfaces.
- Collaborated on scalable APIs using Python (Flask) and PostgreSQL.
- Applied clean code, modular architecture, and optimized React state management.
- Coordinated with cross-functional teams for timely and high-quality releases.

Tech Stack: React (TS), React-Bootstrap, Flask API, PostgreSQL, Git, Agile/SCRUM

Mobile/Web Full-Stack Developer (Freelance) *(Remote)*

Nov 2023 – Mar 2024

- Built a PWA app with **React (Typescript), Redux, and Material UI**.
- Developed scalable backend services using **Node.js (TypeScript) on AWS Lambda**.
- Implemented **DynamoDB + S3 storage** and optimized file/data management.
- Ensured applications adhered to best practices and modern performance standards.

Tech Stack: React, Redux, RTK, Node.js (TS), AWS (Lambda, DynamoDB, S3)

Senior Full-Stack Developer – ConnectOS *(Remote)*

Nov 2022 – Oct 2023

- Delivered a full end-to-end web application: architecture, frontend, backend, and AWS deployment.
 - Used **React, Vite, Material-UI, Redux Toolkit** for responsive, intuitive interfaces.
 - Deployed backend with **AWS Serverless**, using DynamoDB, S3, CloudFront, API Gateway, SES, Route 53.
 - Implemented monitoring and optimization with **AWS CloudWatch**.
 - Independently managed deployments, troubleshooting, and stakeholder communication.
-

Full-Stack Engineer – Orbital (Pay Perform Ltd.), UK *(Remote)*

Jun 2021 – Nov 2022

- Developed interactive web apps with **React, Node.js, and AWS Serverless**.
 - Followed Agile/SCRUM practices with cross-functional teams.
 - Set up CI/CD with GitHub and unit testing pipelines.
-

Senior Backend Developer – Hedy Philippines Inc. *(Remote)*

Jan 2021 – Jun 2021

- Led backend development with **PHP, MySQL, Redis, Nginx, Docker**.
 - Built **GraphQL APIs** and integrated with third-party services.
 - Managed Magento 2 customizations and high-performance tuning.
-

Senior Full Stack Developer – PCCW Solutions Philippines, Inc.

Jul 2018 – Dec 2020

- Designed and developed **SOA/microservices architectures**.
 - Used **ReactJS, Node.js, PHP, Docker CI/CD pipelines**.
 - Managed AWS infrastructure (VPC, EC2, RDS, S3, ElastiCache).
 - Mentored developers and led cross-functional technical strategy.
-

Senior Magento Developer – Outsourced Quality Assured Services, Inc.

Jan 2018 - Jul 2018

- Managed Magento websites, ensuring performance optimization, and debugging.
